

Application control and monitoring

Remotely monitor via App when not at home

Safety Protection Technology

Physical guard **x2**

Open design oxygen supply

Life barrier of air circulation in ball chamber +1

Gold mechanical pyramid structure

More stable support to prevent rollover

Weighing upgrade **x4**

Chassis safety and stability 

Inductive sensitivity 

Weighing stability 

Recording accuracy 

Hardware guarding **x4**

Collecting bin
7 safety protection

Stop working when blocked

Inlet infrared detection

Sense the cat coming in and out

Two high-precision
gravity sensors

Sense the cat coming in and out

Motor overload
current protection

The current
stops working abnormally
